### OWNER

Aldi, Inc.

GEOCON Professional Services, LLC (GEOCON) was retained by Aldi, Inc. to provide construction inspection services, for numerous new Aldi stores. All Aldi stores were single story structures, with plan dimensions on the order of 120 by 130 feet in plan dimension, with surrounding pavement, recessed truck dock, sidewalks and landscaped areas. The buildings consisted of cast-in-place concrete floor slab on grade, with masonry walls and structural steel framing.

Partial Listing of Services Provided:

- Density testing
- Footing subgrade inspections
- Rebar inspections
- Fresh concrete testing and monitoring
- Compressive strength testing
- Structural steel inspections
- Weld inspections
- Proofroll tests
- Asphalt density testing
- Floor flatness/levelness testing
- Floor slab moisture testing
