### OWNER

Various Municipalities within Will  
and Cook County, Illinois

GEOCON Professional Services, LLC (GEOCON) has been retained by Robinson Engineering, Ltd. (REL) to provide confined space entry services in support of their infiltration monitoring program of sewer systems located within various municipalities in Will and Cook County, Illinois. GEOCON provides appropriately trained personnel and necessary equipment to assist REL with the installation, maintenance and removal of flow monitoring equipment within monitored sewer systems.

GEOCON personnel receive classroom and hands-on training for safe entry into permit-required confined spaces as implemented in accordance with the requirements of Occupational Health and Safety Administration (OSHA), Title 29 of the Code of Federal Regulations (CFR) Part 1910.146.
