Wittenberg Village

Wittenberg Village has provided a range of adult care-services for individuals in northwestern Indiana and northeastern Illinois for over 30 years.

GEOCON was enlisted to provide testing and inspection services for the construction of a new 3-story living center, equipped with underground parking garage, eight new 2200 square foot Quadplex Villas, fifteen new 2800 square feet Duplex Villas, a 20,000 square foot Village Square building, and supporting roadways and parking areas on a 47 acre site.

Partially Listing of Services Provided:

- Subgrade strength testing
- Proofroll tests
- Soil and aggregate compaction testing
- Rebar inspections
- Weld and bolted connections inspections
- Fresh concrete testing and monitoring
- Compressive strength testing
- Asphalt density testing
- Retention pond permeability
- Precast panel installation inspection
